PROFILE

Full stack developer with over 15 years of experience building web products, from multi-country corporate websites to an ERP for a retail chain and real-time platforms. I have led a development team as Tech Lead and worked directly with clients across several European countries. I mainly work with PHP (Laravel, Symfony), Vue, Rust and WordPress.

EXPERIENCE

WIRIS · Full Stack Developer Oct 2023 – present · Remote

- Building several of the company's projects, mainly the Store, which handles direct sales to customers.

Vue · Rust

Increnta · Tech Lead (previously Full Stack Developer) Mar 2021 – 2023 · Barcelona

- Joined as a full stack developer and a year later became Tech Lead, leading a 5-person team and owning the technical side of the agency's development department.
- Neuraxpharm: multi-country corporate website for around 8 European countries, working directly with the client's teams in Italy, Spain, the UK and Germany.
- Encuentra Talentos: platform built with ONCE (the Spanish national organisation for blind people) that earned AA accessibility certification.
- Custom WordPress themes and plugins, WooCommerce stores and CRM integrations with the HubSpot API.

WordPress (FSE, Elementor Pro, JetEngine) · WooCommerce · HubSpot API · PHP

The Papaya Group · Full Stack Developer Mar 2018 – Feb 2021 · Barcelona

- Custom ERP built in Symfony for Èggo Kitchen & House, used across its 19 stores in Spain.
- Websites for clients such as Vivanco Cultura de Vino, Scholas Occurrentes, La Marzocco, Central La Otra and Bodegas Garvey.
- WordPress themes and PrestaShop stores.

Symfony · PHP · WordPress · PrestaShop

Freelance Web Developer 2017 – 2022

- Projects for my own clients and in collaboration with advertising agencies.

FormalDocs · PHP Developer Sep 2017 – Feb 2018 · Barcelona

- Led development of the electronic contract generator and its integration with the Signaturit API.

Estadeboda.com · Head of Technology Aug 2013 – Jul 2017 · Caracas

- Responsible for module development on both websites, A/B testing, Mailchimp integration and campaign tracking in Google Analytics.

TradeFX Internacional · Web Developer Feb 2012 – Jul 2013 · Caracas

- Built Deseandolo.com, a Facebook gift card startup selected by Telefónica's Wayra accelerator.

Kluge Interactive · Web Solutions Developer Mar 2011 – Jan 2012 · Caracas

- WordPress websites and plugins, and ecommerce integration with payment gateways.

Global Consultants Group · Developer Oct 2010 – Feb 2011 · Caracas

- Operations management application for casinos and gaming halls.

SIDE PROJECT

UWR Score · Live results for underwater rugby 2026

- Platform for any tournament: it generates the schedule and group and knockout brackets from the tournament format, and computes standings live from each match's events. Launched at Colombia's U-24 tournament (October 2026).

Laravel 13 · Vue 3 · Filament · Docker · Umami
